

## A. HE83138 Introduction

HE83138 is a member of 8-bit Micro-controller series developed by King Billion Electronics Ltd. This IC provides 512 pixels LCD display and built-in OP comparator can be used with light, voice, temperature and humidity sensor or used to detect the battery low. The 7-bit current-type D/A converter and PWM drive output provide the complete speech output mechanism.

The 48K bytes ROM size can be used to store 15 seconds speech data. It can be applicable to the LCD game, medium level educational toy, lower second voice recording system or used with external command mode SRAM or Flash RAM for higher second voice recording etc.

The instruction sets of HE80000 series are quite easy to learn and simple to use. Only about thirty instructions with four-type addressing mode are provided. Most of instructions take only 3 oscillator clocks (machine cycles). The performance of HE83750S is enough for most of battery operation system.

## B. HE83138 Features

- Operation Voltage: 2.4V ~ 5.5V
- System Clock 4MHz ~ 8MHz
- Clock Source: Internal/External Fast clock, Internal/External slow clock
- Dual Clock System :
  - Normal (Fast) clock 32.768KHz ~ 8MHz
  - Slow clock 32.768 KHz
- Operation Mode : DUAL、FAST、SLOW、IDLE、SLEEP Mode.
- Internal ROM: 48K Bytes.
- Internal RAM: 1K Bytes.
- Watch dog timer.
- 16 Bi-directional I/O ports.
- 512 pixels LCD driver with A, B type choice
- LCD Bias : 1/5
- LCD Charge Pump: 1 or 1.5 times of VDD
- One 7-bits current-type DAC output.
- One built-in OP comparator.
- PWM device.
- Built-in DTMF Generator.
- Speech recognition function
- Two external interrupts and three internal timer interrupts.
- Two 16-bit timers.
- Instruction set : 32 instructions, 4 addressing mode. 10-bit DATA POINTER for RAM and 16-bit TABLE POINTER for ROM.

# C. Application Circuit

Twice Charge Pump is selected  
 LCD Max. Voltage=LV3=3/2\*VDD

Twice Charge Pump is selected  
 LCD Max. Voltage=LV3=VDD

No External Parts is necessary if user adopt Internal Fast RC Clock

External Fast Clock: Crystal osc.

External Fast Clock: RC osc.

External Slow Clock: Crystal osc.

External Slow Clock: RC osc.
